Tezro: power up error on L1 display

Published 11/07/2016

Symptom(s):

nothing on screen
power up error on L1 display
red led lights briefly
L1 console error: "001c01 ALERT: VRM not OK: type 12V, number 0"

Fact(s):

SGI Tezro Desktop Workstation

SGI Solution:

The error indicates a faulty 12V VRM on the IP53, replace ip53, other possible causes: Interface board, or PSU
